Policy 513.2 (previously 603.2)

Field Trips (Off-site Learning Experiences)

The Board recognizes that off-site learning experiences are an extension of the classroom which provide teachers with alternate means to enrich and expand learning.

Off-site learning experiences have educational value and provide an opportunity for all students to acquire a broad base of experience outside the classroom which can motivate them, enhance their understanding, and reinforce classroom lessons and learning. The Board recognizes that to ensure equity and accessibility for all to participate in curricular field trips, there might be occasions when schools provide financial support.
