

EDUCATION: AUXILIARY SERVICES

Policy 522 (previously 702)

Transportation

To assist eligible students to attend public school, a school board may, under the School Act, provide for and pay all or part of the cost of conveyance for students who live a considerable distance from the school they attend.

The Board of Education of the Richmond School District, while recognizing that it is not required to provide bus transportation to bring students to and from school, nevertheless will, within the provisions of the School Act and the Regulation, make provision for school bus transportation or transportation assistance within Regulations that it approves and Guidelines that may be established by the Superintendent of Schools.
