MANAGEMENT REPORT

Version: 1990-1244-8262

Management's Responsibility for the Financial Statements.

The accompanying financial statements of School District No. 38 (Richmond) have been prepared by management in accordance with the accounting requirements of Section 23.1 of the Budget Transparency and Accountability Act of British Columbia, supplemented by Regulations 257/2010 and 198/2011 issued by the Province of British Columbia Treasury Board, and the integrity and objectivity of these statements are management's responsibility. Management is also responsible for all of the notes to the financial statements and schedules, and for ensuring that this information is consistent, where appropriate, with the information contained in the financial statements.

The preparation of financial statements necessarily involves the use of estimates based on management's judgment particularly when transactions affecting the current accounting period cannot be finalized with certainty until future periods.

Management is also responsible for implementing and maintaining a system of internal controls to provide reasonable assurance that assets are safeguarded, transactions are properly authorized and reliable financial information is produced.

The Board of Education of School District No. 38 (Richmond) (called the "Board") is responsible for ensuring that management fulfills its responsibilities for financial reporting and internal control and exercises these responsibilities through the Board. The Board reviews internal financial statements on a quarterly basis and externally audited financial statements yearly.

The external auditors, PricewaterhouseCoopers LLP, conduct an independent examination, in accordance with Canadian generally accepted auditing standards, and express their opinion on the financial statements. The external auditors have full and free access to financial management of School District No. 38 (Richmond) and meet when required. The accompanying Independent Auditors' Report outlines their responsibilities, the scope of their examination and their opinion on the School District's financial statements.

Independent auditor's report

To the Board of Education of School District No.38 (Richmond) and the Minister of Education, Province of British Columbia

Our opinion

In our opinion, the accompanying financial statements of School District No.38 (Richmond) (the Organization) as at June 30, 2021 and for the year then ended are prepared, in all material respects, in accordance with the accounting requirements of Section 23.1 of the Budget Transparency and Accountability Act of the Province of British Columbia.

What we have audited

The Organization's financial statements comprise:

- the statement of financial position as at June 30, 2021;
- the statement of operations for the year then ended;
- the statement of changes in net debt for the year then ended;
- the statement of cash flows for the year then ended; and
- the notes to the financial statements, which include significant accounting policies and other explanatory information.

Basis for opinion

We conducted our audit in accordance with Canadian generally accepted auditing standards. Our responsibilities under those standards are further described in the Auditor's responsibilities for the audit of the financial statements section of our report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Independence

We are independent of the Organization in accordance with the ethical requirements that are relevant to our audit of the financial statements in Canada. We have fulfilled our other ethical responsibilities in accordance with these requirements.

Emphasis of matter - basis of accounting

We draw attention to note 2 to the financial statements, which describes the basis of accounting and the significant differences between such basis of accounting and Canadian public sector accounting standards. Note 2 to the financial statements discloses the impact of these differences. Our opinion is not modified in respect of this matter.

Other information

Management is responsible for the other information. The other information comprises Financial Statement Discussion and Analysis for the year ended June 30, 2021.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information identified above and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of management and those charged with governance for the financial statements

Management is responsible for the preparation of the financial statements in accordance with the accounting requirements of Section 23.1 of the Budget Transparency and Accountability Act of the Province of British Columbia, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Organization's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Organization or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Organization's financial reporting process.

Auditor's responsibilities for the audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Canadian generally accepted auditing standards will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with Canadian generally accepted auditing standards, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to
 fraud or error, design and perform audit procedures responsive to those risks, and obtain audit
 evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not
 detecting a material misstatement resulting from fraud is higher than for one resulting from error,
 as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override
 of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit
 procedures that are appropriate in the circumstances, but not for the purpose of expressing an
 opinion on the effectiveness of the Organization's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Organization's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Organization to cease to continue as a going concern.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

NOTE 1 AUTHORITY AND PURPOSE

The School District, established on April 12, 1946 operates under authority of the School Act of British Columbia as a corporation under the name of "The Board of Education of School District No. 38 (Richmond)," and operates as "School District No. 38 (Richmond)." A board of education ("Board") elected for a four-year term governs the School District. The School District provides educational programs to students enrolled in schools in the district, and is principally funded by the Province of British Columbia through the Ministry of Education ("MOE"). School District No. 38 (Richmond) is exempt from federal and provincial corporate income taxes.

The COVID-19 outbreak was declared a pandemic by the World Health Organization in March 2020 and has had a significant financial, market and social dislocating impact worldwide. Under direction of the Provincial Health Officer, all schools suspended in-class instructions in March 2020 and the District remained open to continue to support students and families in a variety of ways. Parents were given the choice to send their children back to school on a gradual and part-time basis beginning June 1, 2020 and full-time beginning September 1, 2020 with new health and safety guidelines. The ongoing impact of the pandemic presents uncertainty over future cash flows, may have a significant impact on future operations including decreases in revenue, impairment of receivables, reduction in investment income and delays in completing capital project work. As the situation is dynamic and the ultimate duration and magnitude of the impact are not known, an estimate of the future financial effect on the District is not practicable at this time.

NOTE 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

a) Basis of Accounting

The financial statements have been prepared in accordance with Section 23.1 of the *Budget* Transparency and Accountability Act of the Province of British Columbia. This Section requires that the financial statements be prepared in accordance with Canadian public sector accounting standards except in regard to the accounting for government transfers as set out in Notes 2(f) and 2(m).

In November 2011, Treasury Board provided a directive through Restricted Contributions Regulation 198/2011 providing direction for the reporting of restricted contributions whether they are received or receivable by the School District before or after this regulation was in effect.

As noted in Notes 2(f) and 2(m), Section 23.1 of the *Budget Transparency and Accountability Act* and its related regulations require the School District to recognize government transfers for the acquisition of capital assets into revenue on the same basis as the related amortization expense.

NOTE 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

a) Basis of Accounting (Continued)

As these transfers do not contain stipulations that create a liability, Canadian public sector accounting standards would require that:

- government transfers, which do not contain a stipulation that creates a liability, be recognized as revenue by the recipient when approved by the transferor and the eligibility criteria have been met in accordance with public sector accounting standard PS3410; and
- externally restricted contributions be recognized as revenue in the period in which the
 resources are used for the purpose or purposes specified in accordance with public sector
 accounting standard PS3100.

The impact of this difference on the financial statements of the School District is as follows:

Year-ended June 30, 2020 - increase in annual surplus by \$24,475,626 June 30, 2020 - increase in accumulated surplus and decrease in deferred contributions by \$220,098,761

Year-ended June 30, 2021 - increase in annual surplus by \$26,662,726 June 30, 2021 - increase in accumulated surplus and decrease in deferred contributions by \$246,761,487

b) Cash and Cash Equivalents

Cash and cash equivalents include cash and highly liquid securities that are readily convertible to known amounts of cash and that are subject to an insignificant risk of change in value. These cash equivalents generally have a maturity of three months or less at acquisition and are held for the purpose of meeting short-term cash commitments rather than for investing.

c) Accounts Receivable

Accounts receivable are measured at amortized cost and shown net of allowance for doubtful accounts.

d) Portfolio Investments

The School District has investments in Guaranteed Investment Certificates (GIC's) and term deposits that have a maturity of greater than 3 months at the time of acquisition. These investments are not quoted in an active market and are reported at amortized cost, and the associated transaction costs are added to the carrying value of these investments upon initial recognition.

NOTE 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

e) Unearned Revenue

Unearned revenue includes tuition fees received for courses to be delivered in future periods and receipt of proceeds for services or products to be delivered in a future period. Revenue will be recognized in that future period when the courses, services, or products are provided.

f) Deferred Revenue and Deferred Capital Revenue

Deferred revenue includes contributions received with stipulations that meet the description of restricted contributions in the Restricted Contributions Regulation 198/2011 issued by Treasury Board. When restrictions are met, deferred revenue is recognized as revenue in the fiscal year in a manner consistent with the circumstances and evidence used to support the initial recognition of the contributions received as a liability as detailed in Note 2 (m).

Funding received for the acquisition of depreciable tangible capital assets is recorded as deferred capital revenue and amortized over the life of the asset acquired as revenue in the statement of operations. This accounting treatment is not consistent with the requirements of Canadian public sector accounting standards which require that government transfers be recognized as revenue when approved by the transferor and eligibility criteria have been met unless the transfer contains a stipulation that creates a liability, in which case, the transfer is recognized as revenue over the period that the liability is extinguished.

g) Employee Future Benefits

i) Post-Employment Benefits:

The School District provides certain post-employment benefits, including vested and non-vested benefits, for certain employees pursuant to certain contracts and union agreements.

The School District accrues its obligations and related costs, including both vested and non-vested benefits, under employee future benefit plans. Benefits include vested sick leave, accumulating non-vested sick leave, early retirement, retirement/severance, vacation, overtime and death benefits. The benefits cost is actuarially determined using the projected unit credit method pro-rated on service and using management's best estimate of expected salary escalation, termination rates, retirement rates and mortality. The discount rate used to measure obligations is based on the cost of borrowing. The cumulative unrecognized actuarial gains and losses are amortized over the expected average remaining service lifetime (EARSL) of active employees covered under the plan.

The most recent valuation of the obligation was performed at March 31, 2019 and projected to March 31, 2022. The next valuation will be performed at March 31, 2022 for use at June 30, 2022. For the purposes of determining the financial position of the plans and the employee future benefit costs, a measurement date of March 31, adjusted for transactions to June 30, was adopted for all periods subsequent to July 1, 2004.

NOTE 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

g) Employee Future Benefits (Continued)

ii) Pension Plans:

The School District and its employees make contributions to the Teachers' Pension Plan and Municipal Pension Plan. The plans are multi-employer plans where assets and obligations are not separated. The costs are expensed as incurred.

h) Liability for Contaminated Sites

Contaminated sites are a result of contamination being introduced into air, soil, water or sediment of chemical, organic or radioactive material or live organism that exceeds an environmental standard. The liability is recorded net of any expected recoveries. A liability for remediation of contaminated sites is recognized when a site is not in productive use and all the following criteria are met:

- an environmental standard exists;
- contamination exceeds the environmental standards;
- the School District:
 - o is directly responsible; or
 - accepts responsibility;
- it is expected that future economic benefits will be given up; and
- a reasonable estimate of the amount can be made.

The liability is recognized as management's estimate of the cost of post-remediation including operation, maintenance and monitoring that are an integral part of the remediation strategy for a contaminated site.

i) Tangible Capital Assets

The following criteria apply:

- Tangible capital assets acquired or constructed are recorded at cost which includes
 amounts that are directly related to the acquisition, design, construction, development,
 improvement or betterment of the assets. Cost also includes overhead directly
 attributable to construction as well as interest costs that are directly attributable to the
 acquisition or construction of the asset.
- Donated tangible capital assets are recorded at their fair value on the date of donation, except in circumstances where fair value cannot be reasonably determined, which are then recognized at nominal value. Transfers of capital assets from related parties are recorded at carrying value.
- Work-in-progress is recorded as an acquisition to the applicable asset class at substantial completion.

NOTE 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

i) Tangible Capital Assets (Continued)

- Tangible capital assets are written down to residual value when conditions indicate they
 no longer contribute to the ability of the School District to provide services or when the
 value of future economic benefits associated with the sites and buildings are less than
 their net book value. The write-downs are accounted for as expenses in the Statement of
 Operations.
- Buildings that are demolished or destroyed are written-off.
- Works of art, historic assets and other intangible assets are not recorded as assets in these financial statements.
- The cost, less residual value, of tangible capital assets (excluding sites), is amortized on a straight-line basis over the estimated useful life of the asset. It is management's responsibility to determine the appropriate useful lives for tangible capital assets. These useful lives are reviewed on a regular basis or if significant events initiate the need to revise. Estimated useful lives are as follows:

Buildings	40 years
Furniture & Equipment	10 years
Vehicles	10 years
Computer Software	5 years
Computer Hardware	5 years

j) Capital Leases

Leases that, from the point of view of the lessee, transfer substantially all the benefits and risks incident to ownership of the property to the School District are considered capital leases. These are accounted for as a leased tangible capital asset and an obligation. Capital lease obligations are recorded at the present value of the minimum lease payments excluding executor costs, e.g., insurance, maintenance costs, etc. The discount rate used to determine the present value of the lease payments is the lower of the School District's rate for incremental borrowing or the interest rate implicit in the lease.

All other leases are accounted for as operating leases and the related payments are charged to expenses as incurred.

k) Prepaid Expenses

Prepaid fees and dues, licenses, and rent are included as a prepaid expense and stated at acquisition cost and are charged to expense over the periods expected to benefit from it.

NOTE 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

1) Funds and Reserves

Certain amounts, as approved by the Board, are set aside in accumulated surplus for future operating and capital purposes (see Note 19 - Accumulated Surplus). Transfers to and from funds and reserves are an adjustment to the respective fund when approved (see Note 14 - Interfund Transfers).

m) Revenue Recognition

Revenues are recorded on an accrual basis in the period in which the transactions or events occurred that gave rise to the revenues, the amounts are considered to be collectible and can be reasonably estimated.

Contributions received or where eligibility criteria have been met are recognized as revenue except where the contribution meets the criteria for deferral as described below. Eligibility criteria are the criteria that the School District has to meet in order to receive the contributions including authorization by the transferring government.

For contributions subject to a legislative or contractual stipulation or restriction as to their use, revenue is recognized as follows:

- Non-capital contributions for specific purposes are recorded as deferred revenue and recognized as revenue in the year related expenses are incurred,
- Contributions restricted for site acquisitions are recorded as revenue when the sites are purchased, and
- Contributions restricted for tangible capital assets acquisitions, other than sites, are recorded as deferred capital revenue and amortized over the useful life of the related assets.

Donated tangible capital assets, other than sites, are recorded at fair market value and amortized over the useful life of the assets. Donated sites are recorded as revenue at fair market value when received or receivable.

The accounting treatment for restricted contributions is not consistent with the requirements of Canadian public sector accounting standards which require that government transfers be recognized as revenue when approved by the transferor and eligibility criteria have been met unless the transfer contains a stipulation that meets the criteria for liability recognition in which case the transfer is recognized as revenue over the period that the liability is extinguished.

Revenue related to fees or services received in advance of the fee being earned or the service is performed is deferred and recognized when the fee is earned or service performed.

Investment income is reported in the period earned. When required by the funding party or related Act, investment income earned on deferred revenue is added to the deferred revenue balance.

NOTE 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

n) Expenditures

Expenses are reported on an accrual basis. The cost of all goods consumed and services received during the year is expensed. Interest expense includes interest charged on capital leases.

Categories of Salaries

- Principals, Vice-Principals, and Directors of Instruction employed under an administrative officer contract are categorized as Principals and Vice-Principals.
- Superintendents, Assistant Superintendents, Secretary-Treasurers, Trustees and other employees excluded from union contracts are categorized as Other Professionals.

Allocation of Costs

- Operating expenses are reported by function, program, and object. Whenever possible, expenditures are determined by actual identification. Additional costs pertaining to specific instructional programs, such as special and indigenous education, are allocated to these programs. All other costs are allocated to related programs.
- Actual salaries of personnel assigned to two or more functions or programs are allocated based on the time spent in each function and program. School-based clerical salaries are allocated to school administration and partially to other programs to which they may be assigned. Principals and Vice-Principals salaries are allocated to school administration and may be partially allocated to other programs to recognize their other responsibilities.
- Employee benefits and allowances are allocated to the same programs, and in the same proportions, as the individual's salary.
- Supplies and services are allocated based on actual program identification.

o) Financial Instruments

A contract establishing a financial instrument creates, at its inception, rights and obligations to receive or deliver economic benefits. The financial assets and financial liabilities portray these rights and obligations in the financial statements. The School District recognizes a financial instrument when it becomes a party to a financial instrument contract.

Financial instruments consist of cash and cash equivalents, accounts receivable, portfolio investments, accounts payable, accrued liabilities, and capital lease obligations.

Except for portfolio investments in equity instruments quoted in an active market that are recorded at fair value, all financial assets and liabilities are recorded at cost or amortized cost and the associated transaction costs are added to the carrying value of these investments upon initial recognition and amortized using the effective interest rate method. Transaction costs are incremental costs directly attributable to the acquisition or issue of a financial asset or a financial liability.

NOTE 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

o) Financial Instruments (Continued)

Unrealized gains and losses from changes in the fair value of financial instruments are recognized in the statement of remeasurement gains and losses. Upon settlement, the cumulative gain or loss is reclassified from the statement of remeasurement gains and losses and recognized in the statement of operations. Interest and dividends attributable to financial instruments are reported in the statement of operations.

Unless otherwise noted, it is management's opinion that the School District is not exposed to significant interest, currency or credit risks arising from its financial instruments. The fair values of these financial instruments approximate their carrying value, unless otherwise noted.

All financial assets except derivatives are tested annually for impairment. When financial assets are impaired, impairment losses are recorded in the statement of operations. A write-down of a portfolio investment to reflect a loss in value is not reversed for a subsequent increase in value.

For financial instruments measured using amortized cost, the effective interest rate method is used to determine interest revenue or expense.

p) Measurement Uncertainty

Preparation of financial statements in accordance with the basis of accounting described in Note 2 (a) requires management to make estimates and assumptions that impact reported amounts of assets and liabilities at the date of the financial statements and revenues and expenses during the reporting periods. Significant areas requiring the use of management estimates relate to the potential impairment of assets, liabilities for contaminated sites, rates for amortization and estimated employee future benefits. Actual results could differ from those estimates.

q) Future Changes in Accounting Policies

PS3280 Asset Retirement Obligations issued August 2018 establishes standards for recognition, measurement, presentation and disclosure of legal obligations associated with the retirement of tangible capital assets and is effective July 1, 2022. A liability will be recognized when, as at the financial reporting date:

- a) there is a legal obligation to incur retirement costs in relation to a tangible capital asset;
- b) the past transaction or event giving rise to the liability has occurred;
- c) it is expected that future economic benefits will be given up; and
- d) a reasonable estimate of the amount can be made.

NOTE 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

q) Future Changes in Accounting Policies (Continued)

Liabilities are recognized for statutory, contractual or legal obligations associated with the retirement of tangible capital assets when those obligations result from the acquisition, construction, development or normal operation of the assets. The obligations are measured initially at fair value, determined using present value methodology, and the resulting costs capitalized into the carrying amount of the related tangible capital asset. In subsequent periods, the liability is adjusted for accretion and any changes in the amount or timing of the underlying future cash flows. The capitalized asset retirement cost is amortized on the same basis as the related asset and accretion expense is included in the Statement of Operations.

A modified retroactive application has been recommended by Government. Management is in the process of assessing the impact of adopting this standard on the School District's financial results.

PS3400 Revenue issued November 2018 establishes standards on how to account for and report on revenue and is effective July 1, 2023. Specifically, it differentiates between revenue arising from transactions that include performance obligations, referred to as "exchange transactions", and transactions that do not have performance obligations, referred to as "non-exchange transactions".

Revenue from transactions with performance obligations should be recognized when (or as) the school district satisfies a performance obligation by providing the promised goods or services to a payor.

Revenue from transactions with no performance obligations should be recognized when a school district:

- a) has the authority to claim or retain an inflow of economic resources; and
- b) identifies a past transaction or event that gives rise to an asset.

This standard may be applied retroactively or prospectively. Management is in the process of assessing the impact of adopting this standard on the School District's financial results.

NOTE 3 CASH AND CASH EQUIVALENTS

	2021	2020
Cash - Operating Fund	\$28,039,224	\$32,968,824
Cash – Special Purpose Fund Cash Equivalents – Special Purpose Fund	3,662,892 1,179	4,402,607 1,120

Investments held by Richmond Community Foundation	90,533	93,546
	\$145,873,456	\$149,904,492

During fiscal 2012, the School District transferred scholarship funds to the Richmond Community Foundation. Richmond Community Foundation will retain, invest and have disbursed scholarships on behalf of the School District, in exchange for an administration fee. The funds will be invested in pooled funds with the Foundation's other assets. The funds will remain with the Foundation for a minimum of 10 years, before returning to the School District unless the agreement is extended.

NOTE 4 ACCOUNTS RECEIVABLE - OTHER

	2021	2020
Due from Federal Government Due from Benefit Carrier - unrestricted deposit account Other	\$978,761 2,475,607 189,493	\$1,357,561 1,667,394 248,884

NOTE 10 EMPLOYEE FUTURE BENEFITS

Benefits include vested sick leave, accumulating non-vested sick leave, early retirement, retirement/severance, vacation, overtime and death benefits. Funding is provided when the benefits are paid and accordingly, there are no plan assets. Although no plan assets are uniquely identified, the School District has provided for the payment of these benefits.

	2021	2020
Reconciliation of Accrued Benefit Obligation

- Included in capital assets is equipment under capital lease with a cost of \$10,551,201 (2020 \$11,820,892) and accumulated amortization of \$4,958,982 (2020 \$4,899,844).
- Buildings work in progress (WIP) having a value of \$31,065,744 (2020 \$35,185,789) have not been amortized. Amortization of these assets will commence when the asset is put into service.

NOTE 13 EMPLOYEE PENSION PLANS

The School District and its employees contribute to the Teachers' Pension Plan and Municipal Pension Plan, jointly trusteed pension plans. The board of trustees for these plans, representing plan members and employers, are responsible for administering the pension plans, including investing assets and administering benefits. The plans are multi-employer defined benefit pension plans. Basic pension benefits provided are based on a formula. As at December 31, 2020, the Teachers' Pension Plan has about 49,000 active members and approximately 40,000 retired members. As at December 31, 2020, the Municipal Pension Plan has about 220,000 active members, including approximately 28,000 from school districts.

Every three years, an actuarial valuation is performed to assess the financial position of the plans and adequacy of plan funding. The actuary determines an appropriate combined employer and member contribution rate to fund the plans. The actuary's calculated contribution rate is based on the entry-age normal cost method, which produces the long-term rate of member and employer contributions sufficient to provide benefits for average future entrants to the plans. This rate may be adjusted for the amortization of any actuarial funding surplus and will be adjusted for the amortization of any unfunded actuarial liability.

The most recent actuarial valuation of the Teachers' Pension Plan as at December 31, 2017 indicated a \$1,656 million surplus for basic pension benefits on a going concern basis. The next valuation will be as at December 31, 2020 with results available in the last quarter of 2021.

The most recent actuarial valuation for the Municipal Pension Plan as at December 31, 2018 indicated a \$2,866 million funding surplus for basic pension benefits on a going concern basis. The next valuation will be as at December 31, 2021 with results available in 2022.

Employers participating in the plans record their pension expense as the amount of employer contributions made during the fiscal year (defined contribution pension plan accounting). This is because the plans record accrued liabilities and accrued assets for each plan in aggregate, resulting in no consistent and reliable basis for allocating the obligation, assets and cost to individual employers participating in the plans.

School District #38 (Richmond) paid \$19,476,933 (2020 - \$18,468,243) for employer contributions to these plans in the year ended June 30, 2021.

NOTE 14 INTERFUND TRANSFERS

Interfund transfers between the operating, special purpose and capital funds for the year ended June 30, 2021, were as follows:

	Оре	erating Fund Special Purpose Funds		Ca	pital Fund	
	2021	2020	2021	2020	2021	2020

NOTE 15 RELATED PARTY TRANSACTIONS

The School District is related through common ownership to all Province of British Columbia ministries, agencies, school districts, health authorities, colleges, universities, and crown corporations. Transactions with these entities, unless disclosed separately, are considered to be in the normal course of operations and are recorded at the exchange amount.

NOTE 16 BUDGET FIGURES

Budget figures, included in the financial statements, are the School District's Amended Annual budget approved by the Board through the adoption of an Amended Annual Budget on February 24, 2021. Changes between the Annual Budget (approved by the Board on June 10, 2020) and the Amended Annual Budget are listed below:

	Annual Budget	Amended Budget	Change
Statement 2			
Total Revenue	\$263,901,849	\$272,413,022	\$8,511,173
Total Expense	273,293,906	280,938,334	7,644,428
Budgeted Deficit for the year	\$(9,392,057)	\$(8,525,312)	\$866,745

NOTE 16 BUDGET FIGURES (Continued)

	Annual Budget	Amended Budget	Change
Statement 4			
Deficit for the year Total Effect of change in Tangible	\$(9,392,057)	\$(8,525,312)	\$866,745
Capital Assets	(28,918,157)	(34,183,919)	(5,265,762)
(Increase) Decrease in Net Financial Assets (Debt)	\$(38,310,214)	\$(42,709,231)	\$(4,399,017)

Significant changes between the annual and amended budget were:

Statement 2

Total Revenue

 Budgeted revenues were amended based on actual student enrolment, increased student tuition fees revenue, increased classroom enhancement fund staffing grant, one-time safe return to school grant and one-time safe return to class grant.

Total Expense

• Budgeted expenses were amended based on revised projections/cost estimates, the additional staffing costs for the classroom enhancement fund staffing grant and increased expenses for the safe return to school and safe return to class grants related to adherence to the new health and safety guidelines dealing with the ongoing impact of the pandemic.

NOTE 17 CONTINGENT LIABILITIES

In the ordinary course of operations, the School District has legal proceedings brought against it. It is the opinion of management that final determination of these claims will not have a material effect on the financial position or operations of the School District.

NOTE 18 EXPENSE BY OBJECT

	2021	2020

NOTE 21 ECONOMIC DEPENDENCE

The operations of the School District are dependent on continued funding from the Ministry of Education and various governmental agencies to carry out its programs. These financial statements have been prepared on a going concern basis.

NOTE 22 SUPPLEMENTARY CASH FLOW INFORMATION

During the year, the School District had acquired tangible capital assets under capital leases of \$946,227 (2020 - \$3,390,008).

NOTE 23 CONTRACTUAL OBLIGATIONS

The School District has entered into a number of multiple-year contracts for the construction of tangible capital assets. These contractual obligations will become liabilities in the future when the terms of the contracts are met. Disclosure relates to the unperformed portion of the contracts.

	2022	2023	2024
Approved Capital Projects -			
Unperformed Portion	\$24,114,980	\$13,012,563	\$2,177,030

NOTE 24 RISK MANAGEMENT

The School District has exposure to the following risks from its use of financial instruments: credit risk, market risk and liquidity risk.

The Board ensures that the School District has identified its risks and ensures that management monitors and controls them.

a) Credit risk:

Credit risk is the risk of financial loss to an institution if a customer or counterparty to a financial instrument fails to meet its contractual obligations. Such risks arise principally from certain financial assets held consisting of cash, amounts receivable and investments.

The School District is exposed to credit risk in the event of non-performance by a debtor. This risk is mitigated as most amount receivables are due from the Province and are collectible.

It is management's opinion that the School District is not exposed to significant credit risk associated with its cash deposits and investments as they are placed in recognized British Columbia institutions and the School District invests solely in guaranteed investment certificates and term deposits.

NOTE 24 RISK MANAGEMENT (Continued)

b) Market risk:

Market risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risk is comprised of currency risk and interest rate risk.

Currency risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in the foreign exchange rates. It is management's opinion that the School District is not exposed to significant currency risk, as amounts held and purchases made in foreign currency are insignificant.

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in the market interest rates. The School District is exposed to interest rate risk through its investments. It is management's opinion that the School District is not exposed to significant interest rate risk as they invest primarily in guaranteed investment certificates and term deposits that have a maturity date of no more than 3 years.

c) Liquidity risk

Liquidity risk is the risk that the School District will not be able to meet its financial obligations as they become due.

The School District manages liquidity risk by continually monitoring actual and forecasted cash flows from operations and anticipated investing activities to ensure, as far as possible, that it will always have sufficient liquidity to meet its liabilities when due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the School District's reputation.

Risk Management and insurance services for all School Districts in British Columbia are provided by the Risk Management Branch of the Ministry of Finance. There have been no changes to risk exposure from 2020 related to credit, market or liquidity risks.

FINANCIAL STATEMENT PRESENTATION - BY FUND (UNAUDITED)

While Canadian public sector accounting standards ("PSA Standards") require that financial information for each fund be presented separately within the unaudited Schedules to these financial statements, there is no reporting requirement to provide segmented summary information.

Thus, for the reader's ease of use of these financial statements, this information is presented below, for both the Statement of Financial Position and the Statement of Operations.

i) Statement of Financial Position by Fund
