

GOVERNANCE

Policy 205-R

Trustee Professional Development and Travel

General Considerations

Because the Board believes that trustees should, as finances allow, engage in professional development opportunities, the Board shall make available in its Annual Operating Budget an amount for trustee professional development.

The Board shall ensure that monies budgeted for trustee professional development are used equitably.

The Board may choose to limit the number of Trustees that may attend certain events.

Professional development should reflect the goals of the Board as well as the professional needs of the individual.

Trustees are encouraged to pursue learning opportunities such as access to educational publications, journals and newsletters. Materials and information acquired should be shared with all members of the Board.

Trustees shall have all reasonable costs reimbursed as per the Administrative Guidelines to this Regulation, and the Administrative Guidelines accompanying Policy 203-G.
